AARP Driver Safety Program

Cars have changed. So have the traffic rules, driving conditions, and the roads you travel every day. Some drivers age 50-plus have never looked back since they got their first driver's licenses, but even the most experienced benefit from brushing up on their driving skills.

You can expect to learn current rules of the road, defensive driving techniques, and how to operate your vehicle more safely in today's increasingly challenging driving environment. You'll learn adjustments to accommodate common age-related changes in vision, hearing, and reaction time.

After completing the course, you will have a greater appreciation of driving challenges and of how you can avoid potential collisions and injuries to yourself and others. There is no test to pass.

The classroom course costs only \$12 for AARP members and \$14 for non-members.

Thursday, September 22, 2011 1-5 p.m.
